

Dear parents and coaches,

Thank you for choosing TFP Sportraits. We are looking forward to a fun photo session with your team. Here are a few pointers to make your session run as smoothly as possible and answers to some commonly asked questions.

Scheduling Coach or head contact person is responsible for scheduling the team to arrive in groups of three players every 20 minutes. Please arrive at your scheduled time. The first player will be photographed at the set start time of scheduled session, so there is no need to arrive any earlier than five minutes prior. This ensures that we have adequate time to get all of our equipment set up and to be ready to start on time. Each player will have approximately 5 minutes each to get into all of their poses and can choose up to four different backdrops for their images.

Whats Included The team package provides every player with three digital images including the Dugout backdrop, the Scoreboard backdrop which are both shown on the top of the advertisement, and a team photo. The team photo is a composite image which is put together in the editing process. One photo from each of the players is used to create the image, therefore the entire team does not need to be at the session at the same time. Head coach determines which team photo backdrop is used.

Pricing Digital images are available for purchase for only \$10 per image. Prints are available for purchase on the website where you will be downloading your files. Buddy photos taken with more than one person are \$20 per image. 4 players max per photo. Each player in the buddy photo receives a copy of the image in their folder. There are no packages or minimum order requirements with TFP, everything is a la cart. We like to keep our clients happy and make this process as easy as possible for everyone involved. Payment options include cash, credit card, Venmo, and Paypal.

Viewing Backdrops Click on the “ 2026 Backdrop Options” link to download or view the backdrop choices that are available. We ask that you please take a moment to go over the backdrop choices with your athlete before your session so that everyone is familiar with the backdrops and poses. Poses shown on the backdrops are the suggested poses that work well with that specific backdrop. But feel free to try a pose of your own. Just be aware that not all poses work with certain backdrops.

Order Forms Click on the “Order Form” link to view or download a copy. Bring your printed and filled out form with you to your session for a speedier check out process. This step is not mandatory, but it will save you time.

Viewing and Downloading Files Upon your arrival you will be given a QR code and password to access your files once they are completed in the editing process. This process is estimated to be about 7-10 working days. Your coach will notify you once the images are ready. Scan your QR code to be directed to your teams website page. Click on to your child's folder, and enter the password. From here you can view and download your images and order prints.

Preparing your Athlete Your child should be in full uniform head to toe including sneakers or cleats, (no flip flops or crocks please.) When they are called up for their photos, they should have their glove, bat and helmet with them along with any accessories such as batting gloves, sunglasses, championship rings etc. If they are a catcher for the team they should be in full gear when it is their turn for photos. We will provide a check list at your session to remind everyone about the details of preparation.

Proofing Images Parents will be able to look at the monitor after each photo is taken to ensure that they are happy with each image. This is where you decide which images you want to use for your backdrops. There are no proofs to view at a later date. This in session proofing process makes the turn around time much faster for our clients. Parents are encouraged to gently but firmly help guide their child in the right direction to capture the desired expression and pose.

We hope that this answers any question that you may have. We are looking forward to meeting you and creating some really fun and creative images with your athletes.

Sincerely,
Tara Fuchs
